**MONITOR SYSTEM**

2 Floor Wedges (same line)

**BACKLINE**

- 3 DI boxes
- 5 microphones with stands (preferable: 1 SM 58 & 4 SM 57)
- 1 extra mic stand to hang small percussions
- 2 sitting stools (or 2 armless chairs)
- 1 small table (or stool or box) to be used as a stand for the groove sampler  
(groove sampler's surface size:35x37cm)
- 1 small table (or stool or box) approximately of same high like that of the sitting stool, to be used as stand for the Indian harmonium (harmonium's surface size: 35x57cm)
- 1 very small table (or high stool or box) to be used as stand for the electronic shruti box  
(shruti box is very small electronic box, surface size: 10x20)
- 2 power supply 220V (left and right position of the stage)

Please note: "stands" for groove sampler and for harmonium can be just common sound engineer's equipment boxes, or plastic boxes of beverages, or whatever, as long as they are stable and of size that they can safely support our two instruments. We don't mind about their appearance, as they will be covered by cloths/rugs that we bring.

**STAGE PLAN**

**Kristi**

(sitting stool + small table for Indian Harmonium  
+small stool for shruti box)  
**1 x SM58 -main vocal**
